A Note from the Principal:

to the class of 2010

Dear Class of 2010,

It was with pleasure that we welcomed you to King Philip Regional High School four years ago, and it is with pleasure that I write this letter congratulating each of you on your achievement as you prepare to graduate.

As you graduate from King Philip Regional High School, I am confident the opportunities that have been available to you will serve to enhance your future success. We are fortunate to have an excellent educational program taught by a talented and dedicated faculty. Most importantly, when you receive your diplomas on June 6th, it is a result of the goals you have set and the commitment you have made to accomplish them.

Each of you has brought something unique to our KP community, and I thank you for your contributions. We are committed to excellence, and we hope that you will continue with your loyalty and support to KPRHS in the years to come. I hope that some of you will consider a career in education!

Along with your families, friends, and the KP community I am proud of you; and I look forward to each of you taking your place in your chosen profession or your continued education.

Best wishes,
Jill Proulx, Principal

FACULTY

Teacher of the Year 2009 - 2010

Mr. Sean Skenyon

What inspired you to become a teacher? I read Emerson's *Self Reliance* in 11th grade and it spoke to me. I wanted to help students find a work along the way that spoke to them.

What do you think is the best part of teaching? Helping students develop the skill of writing so they can use it and succeed in the years to come.

What is your favorite piece of literature to teach? *The Great Gatsby.* It's nearly perfect. It's about love, hope, unlimited possibility, and the American Dream. I can't think of anything else I would rather talk about.

What is your favorite punctuation mark? The semicolon. I base all my friendships on whether the person knows how to use the semicolon. I obviously do not have many friends.

How did you meet Ms. Proulx? Did you take her to Walden Pond? I met Ms. Proulx here. I have never taken her to Walden Pond, but I have taken her to Chili's, Friendly's, and the 99 Restaurant. Perhaps I'll bring a copy of Walden to our next trip to Friendly's. I hear that the taste of a sundae improves when listening to Thoreau.

Do you have anything special to say to the class of 2010? Thank you for the Teacher of the Year Award. I've had a great time teaching many of you. Don't ever forget the Skenyon Rules of Writing.

Reasons seniors chose Mr. Skenyon...

chel Boardman: "He ne of the few teachers e had who actually tivated me. He made a better writer and anged me as a student."

Cam Burke: "His sheer wit, his appreciation for fine arts, his accent, his intelligence on daily life, and because we are 'Brothers In Arms'!"

Liz Arico: "He is the one teacher I'll always remember. I'm so glad I was a part of the legacy he's leaving at KP. Period 5 lives on... AOW!"

Catherine Owen: "He is the one teacher that you compare every other teacher to. Once you've had him, no one else compares."

Brooke Sweeney: "He is the Daisy to my Gatsby. He is my green light."

Time to Shine

Well, the time is upon us that we knew would surely come,
This is the year of your high school graduation- not by itself a paltry sum.

You engaged the past fourteen years in splendid fashion what probably seemed to you to be an endless run,
With a combination of attention studies- and not just a handful of fun.

Your Mom and Dad throughout always knew that what we were witnessing was the development of a true gentle- man,
We are so very proud of you, bud, that our love, respect, and expectations for you have no limit, please understand.

Remember always that there are many who will need the warm glow of your heart and soul,
We know that you will be there for them, knowing that you will grow stronger by lessening of their toll.

For it is your era which is almost upon us, to flourish, and provide service so kind,
To use you God-given gift of character, intelligence and ruth, in your magnificent time to shine.

With love and devotion, Mom and Dad.

Slippery Slope

Nearly 16 million Americans lost their jobs in the wake of the recession. The increased wave of lay-offs put the national unemployment rate at 10.2%, the highest in over 26 years. Although the economy began to rebound from the worst recession in 70 years, employers continued to be wary.

Clunkers Make Some Noise

For nearly a month in the summer of 2009 America was consumed by CARS (Car Allowance Rebate System), commonly known as Cash for Clunkers. The government program was designed to encourage drivers to trade-in old gas-guzzlers in favor of new, fuel-efficient vehicles. With an incentive of up to $4,500, the program was wildly successful and nearly 700,000 cars were traded in.

A Music Icon Remembered

Legendary performer Michael Jackson passed away suddenly at the age of 50. As news spread of his death, the internet suffered a significant slowdown as people worldwide conducted simultaneous searches. Jackson was also nominated for five American Music Awards in 2009, including Artist of the Year, after his music saw a tremendous surge in sales and airplay. As a final tribute, Sony Pictures released *This Is It*. The never-before-seen footage of Jackson rehearsing for his final 50 shows was a massive success, making millions.

Balloon Hoax

Millions watched as a large metallic balloon, said to be carrying a 6 year old boy, soared through the air in Colorado. When it landed and "balloon boy" Falcon Heene was not inside, the world was relieved to learn he had been hiding in the attic the entire time. Three days later, after a telling interview, the whole spectacle was deemed a hoax in the parents' pursuit of fame and fortune. The parents pled guilty to criminal charges and received jail time.

Liberty Reopens

On July 4th one of the nation's most recognizable symbols of freedom, the Statue of Liberty, reopened its crown to visitors. After the September 11th attacks, the monument was closed to all visitors until 2004 when the base and lower observation decks were reopened. Guests will be allowed to make the 168-stair climb to the top for the next two years, when the crown will close again for safety work.

Nuclear Test

North Korea conducted a series of rocket and missile tests, including an underground nuclear bomb test in an attempt to lure the U.S. into talks to loosen sanctions. The international community was outraged, stating that the test was in clear violation of international law. In 2008, North Korea agreed to suspend its nuclear testing in exchange for economic stimulus, but the deal fell through after it removed inspectors from the country.

Catastrophic Quakes

The island nation of Haiti was struck by a devastating 7.0 magnitude earthquake so strong it could be felt nearly 200 miles away. The flattened capital city left millions seeking shelter and medical attention and Haitian government officials estimated over 111,000 people lost their lives. Humanitarian organizations such as the Red Cross set up aid and relief efforts while streamlining donations by allowing individuals to text message pledges. Within days, over $355 million in donations had been raised through the combined efforts of companies, charities and individuals.

All a Buzz

Kavya Shivashankar, a 13 year old from Kansas, won the Scripps National Spelling Bee. A four-time competitor and aspiring neurosurgeon, Kavya won the trophy and more than $40,000 in cash and prizes with her correct spelling of "Laodicean" — meaning lukewarm or indifferent in religion or politics.

Oprah Moves On

Popular syndicated talk show host and business tycoon, Oprah Winfrey, announced she would end *The Oprah Winfrey Show* in late summer 2011. The news came as a shock to fans that have elevated her status to nothing short of an icon since the show's inception in 1986. Early speculation indicated she may start a new show on her own Oprah Winfrey Network in 2011. Her show currently draws about 7 million viewers a day.

Fort Hood Tragedy

On November 5, 2009, Fort Hood, America's largest military base, transformed from a place where soldiers prepare for war to an actual battlefield. Major Nidal Malik Hasan, a licensed military psychiatrist, opened fire in the processing center where soldiers report before deployment. Twelve soldiers and one civilian lost their lives, while 30 others were injured, including Hasan. In the past, Hasan had been openly critical about the war on terror.

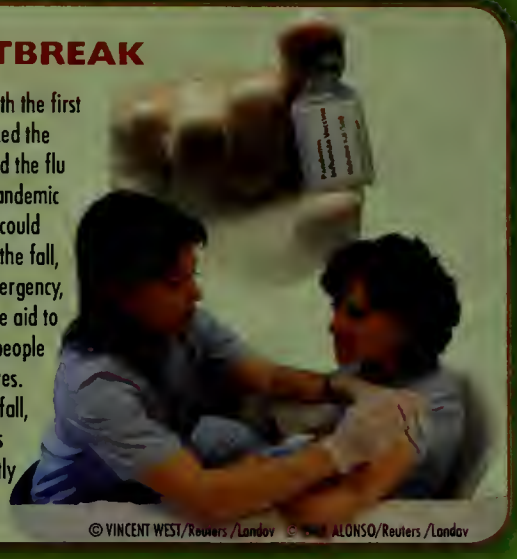
Iranian Election Protests

Iran's presidential election drew international attention when disputes over the winner sparked two weeks of protests. Reformist activists claimed Mahmoud Ahmadinejad's landslide win was a fraudulent mishandling of the ballots. The protests resulted in 20 fatalities, numerous arrests and trials for nearly 100 demonstrators facing charges such as attacking government property, violence toward security forces and creating panic in public.

H1N1 Flu Outbreak

In the spring of 2009, H1N1 emerged with the first reported cases in Mexico. The virus reached the United States in April and officials worried the flu would spread rapidly, causing a global pandemic and fear that the unpredictable flu virus could mutate into a more dangerous strain. In the fall, President Obama declared a national emergency, enabling the government to provide more aid to the states. In the U.S. alone, millions of people were infected and thousands lost their lives. When a vaccine became available in the fall, thousands flooded phone lines and clinics around the country, as the demand greatly outnumbered the first supply.

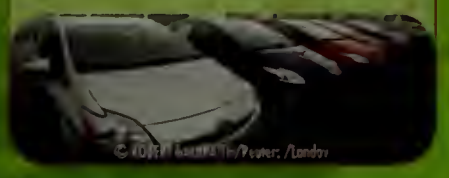


Sonia Supreme

With a vote of 68-31, Sonia Satomayor became the first Hispanic person to become a Supreme Court Justice and just the third woman of all time. Satamayor was appointed to the Supreme Court with 17 years of federal experience, having tried over 3,600 cases.

Toyota Troubles

Automobile giant, Tayata, recalled eight of its models after learning af a problem with its acceleration mechanisms that caused some gas pedals to stick and vehicles to accelerate withaut warning. Though the company said the problem is "rare and infrequent" it decided to recall about 4.2 million vehicles worldwide and brought U.S. sales and production to a halt. The company tried to remedy the situation and ease the nerves of uncertain drivers by sending new parts to dealers to fix the faulty pedals.



Health Care Hurdles

In graundbreaking sessians af Cangress, both the House and Senate passed bills for health care refarm after months af debate. The next step was to merge the nearly $1 trillian proposed plans for a final vote. If passed, the bill would become the largest federal health care expansion in forty years since the introduction of Medicare and Medicaid. The goal of the bill is to bring extended insurance coverage to an additional 30 million Americans.

Ares Blasts Off

Forty years after putting the first men an the moan, NASA is once again elevating its space program with the new Ares 1-X Rocket. The streamline rocket's simpler design is cheaper and up to 10 times safer than its shuttle predecessors. Despite a successful first test in late October, officials say that the 1-X may not carry astronauts until 2017.

TIME Magazine's "Best Invention of the Year".

Surprise Prize

A surprise to many, the Norwegian Nobel Committee hanored President Barack Obama with the 2009 Nobel Peace Prize, just eight months into his tenure. The committee explained it was Obama's "extraordinary efforts ta strengthen international diplomacy and cooperation between peoples" that brought his name ta the top of the nominees list. Upon learning the news, the president remarked that he was humbled by the decision.

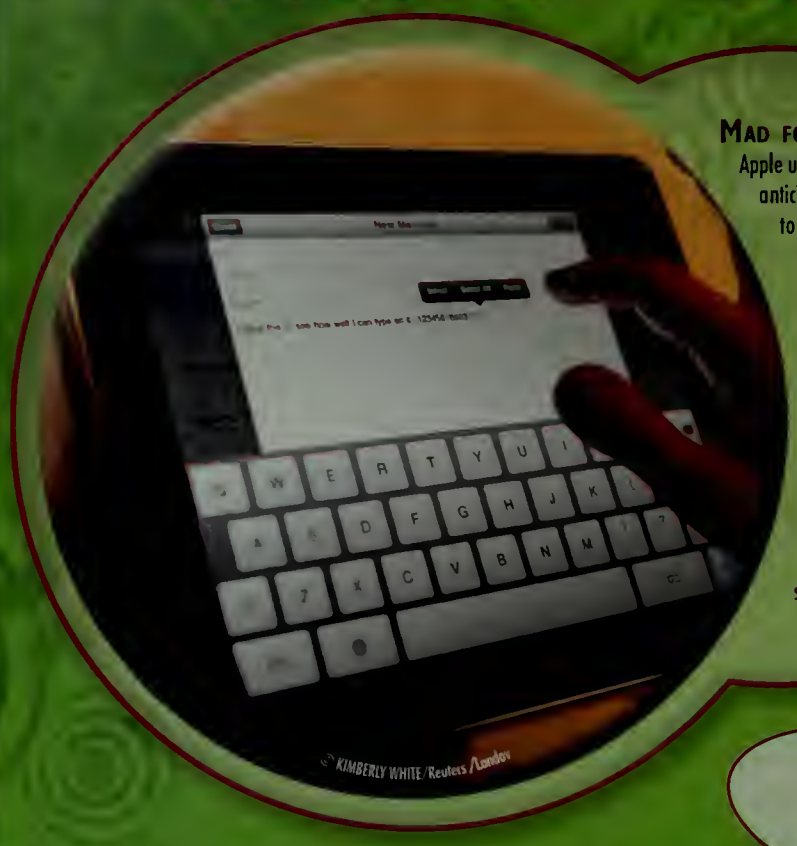
When Dugard was 11 years ald she was obducted by Philip Garrido while wolking ta her schaol bus. Jaycee was held coptive in Garrida's backyard. Both Garrido ond his wife face multiple charges, including kidnapping and false imprisanment. Jaycee has since reunited with her family.

Headline News



Mad for iPad

Apple unveiled its highly anticipated iPad this year to mixed reviews. Many Apple devotees were excited about the tablet with its nearly 10-inch touch screen and 3G connection, while others were skeptical about the name and data plan. As part of the iPad, Apple also released the iBook, an application that allows users to see books on a shelf, change fonts, and touch the screen to turn pages.

Goodbye Good Morning America

In a teary farewell, Diane Sawyer said "goodbye" to *Good Morning America* and "hello" to ABC's *World News*. After more than 10 years on the weekday morning show, Sawyer replaced the retiring Charles Gibson as the anchor of the nightly news program. Sawyer's replacement was George Stephanopoulos, former President Clinton staff member and moderator of *This Week* on ABC.

Fall of the Wall Remembered

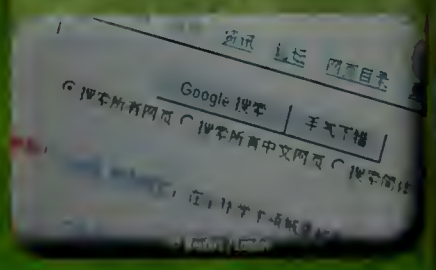
Twenty years ago the Berlin Wall fell, marking the end of the Cold War and the divide between East and West Germany. To celebrate the anniversary, thousands of German citizens celebrated as 1,000 towers, all 8 feet tall, were toppled to symbolize the destruction of the dividing wall. The celebration was overseen by current German Chancellor Angela Merkel and former Russian leader Mikhail Gorbachev, who many hold responsible for reforming the former Soviet Union.

Frightening Flight

On Christmas Day 2009, a Nigerian man attempted to blow up a flight carrying nearly 300 passengers from Amsterdam to Detroit, Michigan. Umar Farouk Abdulmutallab had a bomb sewn into his undergarments and tried unsuccessfully to detonate the devices as the plane made its final descent. Stringent security precautions were put into effect and President Obama ordered a thorough review of safety regulations. Al Qaeda later claimed responsibility for the terrorist act.

Linking Languages

Historically, URLs have been constructed with Latin based characters like 1, 2, 3 and A, B, C. Now, after approval by the International Corporation for Assigned Names and Numbers (ICANN), domain names will appear with other characters from Arabic and Chinese languages. The chairman of ICANN, Peter Dengate Thrush said, "The coming introduction of non-Latin characters represents the biggest technical change to the internet since it was created four decades ago."



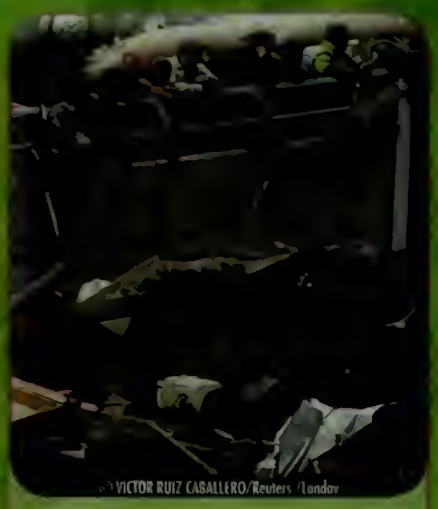
The Sweethearts® brand is 145 years old.

Palin Resigns

Alaskan Governor and 2008 Republican Vice Presidential candidate Sarah Palin resigned from office, saying that Lieutenant Governor Sean Parnell would "fight even harder" for Alaskans. Palin added that her decision was made to protect her family from further criticism and would also allow her to advocate for causes such as energy independence and national security. In January 2010, it was announced that Palin would join Fox News as a contributor.

Be Mine

Sweethearts®, the popular Valentine's Day treat, added a new phrase to its line of endearing candy love messages. Teaming up with the social-network, Twitter, the candy company started stamping "Tweet Me" on its heart-shaped candies. Sweethearts also plans to introduce a new iPhone app that would allow users to send electronic versions of the candy with personalized messages to friends' Twitter pages.



NYC Flyover

Workers in Manhattan, New York were panicked as a Boeing 747 and an F-16 aircraft circled the Statue of Liberty, causing many to fear a repeat of the 9/11 attacks. It was later discovered that the planes were official government aircrafts conducting a photo shoot. The official who approved the fly-over later resigned.

Electronic Text Books

College students caught a break this year—with free text books. Flat World Knowledge allowed 40,000 students at over 400 colleges and universities to access their course materials online, for free, saving students nearly $3 million in the fall semester alone. With other options like print-on-demand and integrated audio and video, the company hopes to expand its offerings to other schools throughout the country.

On Shaky Ground

The South American country of Chile was the target of an 8.8-magnitude earthquake that destroyed many villages in its path. The next day the same south-central region of the country was struck again by a tsunami that created waves over 18 feet high. Approximately 800 people lost their lives and the destruction between the two natural disasters brought widespread shortages in food.

House Party Crashed

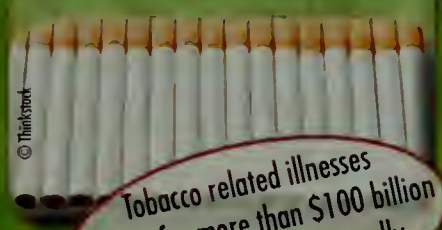
Virginia couple Tareq and Michaele Salahi, crashed the first state dinner held by the Obama's. Passing two security check-paints, the cauple mingled with Vice President Jae Biden and Chief of Staff Rahm Emanuel before exiting twa hours later. The breach of security caused a full investigation by the Secret Service. Months later, speculatian turned to White House sacial secretary Desiree Rogers who was criticized for not keeping a checklist of attendees as they entered the event. Rogers later resigned.

Google China

After a sophisticated cyber attack rooted in China, Google announced it would no longer censor search results on Gaogle.cn, the Chinese version of the popular search engine. The Chinese government requires censorship of search results and websites ta prevent security and state secrets from being jeopardized. China has the largest population of internet users in the world.

FDA Takes on Tobacco

The Family Smoking Prevention and Tobacco Control Act gave the FDA more power to control the tobacco industry. Under the new legislation, tobacco companies were no longer allowed to use words like "mild" or "low-tar" and were also prohibited from selling candy or fruit flavored cigarettes.



Tobacco related illnesses account for more than $100 billion in health care costs annually.

My Headlines

What were your favorite headlines of the year?

Late Night Shuffle

After 17 years, *Tonight Show* host Jay Leno passed the torch to fellow NBC late-night personality, Conan O'Brien — but not for long. The *Tonight Show* lost millions of viewers and Leno's new self-titled primetime show was deemed a flop. Just seven months after giving O'Brien *The Tonight Show*, NBC reversed course, returning Leno to his former seat. As part of the deal, NBC agreed to pay Conan $33 million, with $12 million going to his staff in severance. O'Brien hosted his last show on January 22nd, while Leno returned to *The Tonight Show* on March 1st.

Air France

An Air France Airbus Flight AF 447 flying from Rio de Janeiro, Brazil to Paris, France crashed into the Atlantic Ocean. None of the 228 people on board survived. Despite initial reports, the plane hit the water vertically, instead of breaking apart in mid-air. The crash was the worst in Air France's 75-year history.

Dangers of Fast Food

For two yeors, John Monley, o 50-yeor-old Norih Corolino mon, complained of severe coughing, pneumonio, ond vomiting. When doctors used o tiny comero to investigate his lungs they were shocked to find the couse — a piece of plostic. The plostic wos removed and troced backed to o spoon from fost-food choin Wendy's after doctors recognized the eatery's logo.

The Next American Idol Judge

After eight seasons, *American Idol* judge Paula Abdul left the show. Emmy award-winning talk show host and comedian Ellen DeGeneres filled the seat and began judging duties when the show returned for its ninth season. Shortly after the show's return another *Idol* judge, Simon Cowell announced his intended split at the end of the season. It was reported that Cowell planned to develop a new talent show series based on the popular U.K. series, *The X Factor*.

Pirates Hold Captain Captive

After five days of being held hostage on the dangerous seas off the coast of Samalia, Captain Richard Phillips was rescued from his pirate capturers. In a tired moment, the pirates let down their guards long enough for U.S. Navy SEAL marksmen to take their shots, ending the lives of all three pirates. Days earlier, Phillips offered himself as a captive to the pirates in order to prevent them from seizing his vessel, the Maersk Alabama, ultimately protecting his fellow crewmen.

Science & Discoveries

Aerodynamic Seeds

"Helicopter seeds," the seeds from maple trees, have provided hours of fun for children but researchers were stumped as to what made the seeds hover. A team of Dutch and American scientists discovered the answer. When a maple seed swirls, a tornado-like vortex lowers the air pressure around the seed, sucking the wings upward to oppose gravity—insects, bats, and hummingbirds employ the same technique.

In Hot Water

Ocean temperatures around the world measured 1 degree higher than normal between June and August, averaging 62.5°F, according to the National Oceanic and Atmospheric Administration. August saw the warmest temps on record since 1880, when record keeping began. Though climate change is listed as a factor, meteorologists say the warming is also due in part to a natural El Niño system. Ocean heat puts coral reefs in harm's way and also contributes to melting Arctic sea ice and hurricane strength.

Poo Power Payoff

In response to rising energy costs year-after-year, Shawn Saylor turned to an unlikely renewable source to power his family's dairy farm. Using the manure from 600 cows, Saylor used a process known as anaerobic digestion to generate energy. Saylor explained that this method produces a savings of about $200,000 per year with the ability to sell left over energy back to the power company.

Tiny T-Rex

History's fearsome Tyrannosaurus Rex may have had miniature ancestors. A newly discovered ancient creature known as "Raptorex" closely resembles its massive relative, at only a fraction of the size. Experts report it may have weighed only 150 pounds compared to T-Rex's 13,000 pounds. Raptorex would have existed 60 million years before T-Rex, and despite its size, would have touted an extremely powerful bite.

A Farmer's Friend

Even plants have joined in the text-messaging craze. Through SmartCrop™ infrared thermometers planted in soil, plants can "tell" farmers when they are hot or thirsty. Most crops have an ideal temperature for growth and these thermometers allow farmers to be notified by text message if a plant has risen above the ideal temp.

Let's Go Fly a Kite

Scientists from the University of California and the Carnegie Institution have discovered a way to create sustainable energy—through kites. High-altitude winds contain a vast amount of energy. By releasing kite-like wind turbines miles above the planet and tethering them to the ground, researchers believe they could create enough energy to supply electricity worldwide.

Cooling Sun

Scientists have discovered that the sun is at its dimmest in over 100 years. Typically, the sun undergoes 11-year cycles, culminating in the expulsion of solar flares and planet-sized debris. After 2008 the sun was expected to become increasingly hotter, but instead it was at a 50-year low for solar pressure and a 100-year low for sunspot activity. Although dimming of the sun has resulted in decreased temperatures in the past, the onset of global warming has likely counteracted this phenomenon.

Growth Spurt

The Bristlecone pine is the world's longest-lived tree, sustaining ages up to 4,800 years. Recently, researchers found that these ancient trees are growing at a much faster rate than ever before as evident by its widening rings. The growth is presumably due to the increase in temperature in their high-altitude climate over the past 50 years.

Colossal Sea Monster

The fossilized skull of an ancient sea monster called a pliosaur was discovered along the Jurassic Coast of England. The skull—dating back 150 million years—measured nearly eight feet. Scientists believe the creature's full size was up to 52 feet long, making it the biggest pliosaur ever found. The dangerous sea predator could have eaten a T-Rex for breakfast!

Solar Energy Makeover

Developers have found two ways to make solar power panels more appealing to the average homeowner. First, underground panels use fiber optic cables to capture and distribute sun energy, instead of heavy panels. The second option is to incorporate shingle-like solar panels that have a thin copper film covering to absorb light energy into the roof. The Powerhouse™ Solar Shingle is expected to be less expensive and easier to install than full-size panels.

Carbon Capture

Professor Klaus Lackner of Columbia University has created a "synthetic tree" able to capture destructive carbon dioxide 1,000 times better than real trees. When the wind blows through the "leaves", carbon is trapped and converted to a liquid form. One unit could remove up to a ton of carbon dioxide from the atmosphere a day—the equivalent of 20 cars.

The New Face of Hollywood

Legendary filmmaker James Cameron reshaped the movie industry by helping develop the advanced camera technology used in his blockbuster hit Avatar. Cameron helped pioneer a lightweight, two-lens camera that can shoot dynamic live action footage in 3-D and a head-rig camera that accurately records facial expressions. The result is a stunningly realistic, digitally created movie that captures even the most obscure details on an actor's face. The computer generated characters, like those on Avatar's fictional planet of Pandora, appear more realistic than ever before.
